SERVICES - Installation

Rotating equipment

Independent contractor for
new installation and
(field)service

Gas turbines

Steam turbines

Compressors

Offloading equipment

Alignment

Steel structure and
insulation panels

Mechanical installation

Electrical installation

Piping fabrication
and installation

SERVICES - Maintenance

Overhaul

Rotor inspection

Periodic inspections

Laser alignment

Disassembly

And more

Industrial Installations

- Process systems
(optional in) Skids or ISO-containers
- Fabrication of piping and equipment
 - Designcode acc.
EN13480 or
ASME B31.3
- Detail engineering

SERVICES - Prefabrication & Installation

Container modification

Equipment manufacturing

Air skid assembly

**Certified welding
EN and ASME**

Piping fabrication

Gas fuel skid assembly

Container installation

Pipe bridge installation

**Steam manifold
and piping**

Gas manifold and piping

Air skid installation

Tool container on-site

On-site installation

We coordinate all installation works, such as:

- Rental equipment
- Site facilities
- Cranes
- Scaffolding
- Insulation
- Painting and more

On-site testing

- NDT
- Hydro test
- Leak test
- Insulation resistance measurement
- Polarity and more
